Step Ladders

Tape Measures

Drywall Lifts

Drywall/Collared Bits

Pancake Compressors

Angle Drills

Generators

As Greater Cleveland Habitat for Humanity engages thousands of volunteers throughout the course of the year, our professional tool sets require continuous replacement and repair.

Please buy a tool from our list, clean out your basement, or empty your garage, and donate new or used items to help keep Habitat for Humanity on the job.

Needed new and used tools will be placed directly into service on our job sites. We will sell all other tools through ReStore, our recycled building materials store that provides income to support our mission to eliminate poverty housing.

Not only do ReStore proceeds help us fund the building of new homes, but ReStore also places tools and materials for home repair and renovation into the hands of the community at a fraction of their original cost, while keeping tons of material out of local landfills.

You can also donate bath and kitchen cabinets, windows, doors, light fixtures, lumber, tile, furniture and appliances. For more information, visit www.clevelandrestore.org.
